204 South Center Street
Santa Ana, California 92703

Purchase Order Number: TKM 010320

A. TEST: Quality Control Review of Warning Labels

B. TEST ITEMS: Six (6) Earthquake Gas Shut-Off Valves
FAGV-400 4", Flanged, S/N 5219-F00029
AGV-300, 3" Pipe, S/N 5219-01258
AGV-250, 2.5" Pipe, S/N 5219-00943
FAGV-300 3" Flanged, S/N 5219-F00014
AGV-400, 4" Pipe, S/N 5219-0434
FAGV-600, 6" Flanged, S/N 5219-F0012

C. SPECIFICATIONS:

1. ASCE Standard Document ANSI/ASCE/SEI, Paragraph 1.4
2. ANSI NCSL Z540-1
3. ISO 17025:2005

D. RESULTS:

This is to certify that the test items listed above were verified to ensure that the warning labels on the items meet the criteria stated in Paragraph 1.4 of the specification listed above. The test items were proofread for accuracy, legibility, punctuation and spelling. All parts met the requirements of the specification.

These items had been previously tested by NTS for Pressure Drop vs. Flow/Capacity, Deflection and Response to Seismic Disturbance. A copy of those reports is attached in Appendix 1 of this report. No special equipment was required for this review. The test items were returned to Firefighter Gas Safety Products for post tests and final evaluation.

Test data and photographs are attached.

David Gregory,
Program Manager and Technical Review

Cathy Rumble,
Quality Coordinator/Preparer
